

PARTNERSHIP FOR HEALTH ANALYTIC RESEARCH, LLC

Statistician, Data Analytics Team

Overview of PHAR

Partnership for Health Analytic Research (PHAR), LLC is a clinically focused health services research consultancy. We combine rigorous methodology with extensive clinical expertise to support clients in the life science industry. Our clients appreciate the unique insight our experienced staff brings to each and every project. Unencumbered by corporate bureaucracy, we can efficiently execute contracts and complete projects on time and on budget. We pride ourselves on being reliable and responsive to our clients' changing needs. Our work crosses a wide range of clinical areas, including oncology, rheumatology, pediatrics, infectious disease, urology, and others.

Position Description

The statistician will work with PHAR's Data Analytics team, which completes a wide range of secondary data studies using a variety of databases, including public and commercial claims. Common study types include epidemiology, burden of illness, medication adherence and healthcare resource utilization. Working with experienced methodology experts and the Chief Statistician, the statistician will assist with the design and execution of these research projects. The statistician will both prepare the data for analysis (including assisting with data requests, programming study metrics) and conduct statistical modeling in SAS, under the supervision of the Chief Statistician. The statistician will also be called upon to explain statistical results to other researchers, or in written deliverables, including technical reports, manuscripts, and abstracts/posters. We seek persons with a strong interest in health economic research and analysis, and an interest in working in an environment where teamwork, integrity, and high standards are valued.

Qualifications

- Master's in statistics, mathematics, public health, or similar
- 2-3 years' experience with statistical modeling in SAS a plus
- Ability to communicate clearly and effectively in English, both orally and in writing
- Ability to work effectively as a member of a multidisciplinary team
- Experience with health insurance claims data a plus

Who We Are and What We Have to Offer

This position is based in our office in Beverly Hills, CA. Starting salary of \$60,000-100,000, depending on experience. We provide medical, dental, vision and disability insurance; and offer participation in a 401k after 1 year. If interested, please submit a cover letter, CV/resume, writing sample, and your salary requirements to: marianne.burrows@PHARLLC.com
