

Partnership for Health
Analytic Research

Director, Real World Evidence

Overview of PHAR

Partnership for Health Analytic Research (PHAR), LLC is a clinically focused health services research consultancy. We combine rigorous methodology with extensive clinical expertise to support clients in the life science industry. Our clients appreciate the unique insight our experienced staff brings to each and every project. Unencumbered by corporate bureaucracy, we can efficiently execute contracts and complete projects on time and on budget. We pride ourselves on being reliable and responsive to our clients' changing needs. Our work crosses a wide range of clinical areas, including oncology, rheumatology, pediatrics, infectious disease, urology, and others.

Position Description

The Director is the principal investigator in a multidisciplinary team that includes other researchers, statisticians, project managers and others with relevant training. Working with other experienced methodology experts, the Director manages the design and conduct of research projects including epidemiological, burden of illness, and healthcare resource & utilization studies, using both commercial and public data sources. The Director uses his/her methodological experience to provide insight into clients' questions across a variety of clinical topics. The position also manages junior team members and identifies new business opportunities in the pharma industry.

Persons with significant experience in health policy research and analysis, and an interest in working in a collaborative, entrepreneurial environment are encouraged to apply.

Partnership for Health
Analytic Research
